

FINAL 450™

Wood/Gym Floor Finish

FINAL 450™ is a durable, high-solids, urethane wood/gym finish specially formulated to meet strict VOC requirements established in many parts of the country. At a VOC rate of less than 450 grams per liter, this complies with the National AIM VOC Rule. Bottom-line, FINAL 450 is easier on your people and the environment.

Each gallon covers about 500-600 square feet and comes conveniently packaged in five-gallon containers.

Underwriters Laboratories, Inc.® classified 186S for slip resistance. FINAL 450 is easy to apply using a Hillyard Multi-Flo®, conventional lambswool applicator or weighted T-Bar applicator.

If you are looking for a durable, VOC-compliant wood gym finish, FINAL 450 is another great PUR-O-ZONE environmental cleaning solution.
