

PUR-O-ZONE

The Link Between Durability and Routine Maintenance

Hillyard products are very durable and are designed to perform exceptionally well even under the toughest sports floor conditions.

Dirt and sand are the enemies of sports floors - acting like grinders that cut and abrade the finish.

Dust mopping your sports floor after every 4 hours of use will help keep your sports floor performing well and looking great at game time.

Hillyard recommends the Court Clean® system to help maintain your wood sports floor. Contact your Hillyard Consultant for more information.

Court Clean is a registered trademark of TKH Design, Inc.

- Finish applicators and taping systems
 - Dust mop systems and turkish toweling
 - Floor machines, pads and screen discs
 - Safety equipment
 - Entrance matting and more

Three Simple Steps To Keep Your Sports Floor In Great Shape

- Dust mop after every 4 hours of use with a dust mop that has been treated with Hillyard Super Hil-Tone® (*treat the dust mop the night before use, NOT right before use*).
- Mop spills as soon as possible to prevent slips and falls.
- Damp mop or autoscrub entire floor with a Hillyard cleaner, like Super Shine-All® or Pre-Game™.
