

*POOL DRAIN SUCTION ACCIDENTS AND DEATHS
CREATE THE URGENT NEED FOR A SAFETY DEVICE*

**“VIRGINIA GRAEME BAKER”
POOL AND SPA SAFETY ACT
REQUIRES ACTION BY DECEMBER 19, 2008**

*Don't tear up your pool! There is a better alternative. Federal interpretation discusses use of SVRS, Safety Vacuum Release Systems. **PUR-O-ZONE** can install an SVRS for you.*

“The Act specifies that on or after December 19, 2008, swimming pool and spa drain covers available for purchase in the United States must meet specific performance requirements. Additionally, public swimming pools, wading pools, spas and hot tubs must meet requirements for installation of compliant drain covers. New drain covers which meet the current standard are now beginning to make their way into the marketplace. Additionally, in certain instances, public pools and spas **must have additional devices or systems designed to prevent suction entrapment...**”

“...each public pool and spa in the United States with a single main drain or other than an unblockable drain shall be equipped, at a minimum, with 1 or more of the following devices or systems designed to prevent entrapment...

“...(1) Safety Vacuum Release System (SVRS) – A safety vacuum release system which ceases operation of the pump, reverses the circulation flow, or otherwise provides a vacuum release at a suction outlet when a blockage is detected, that has been tested by an independent third party and found to conform to ASME/ANSI standard A112.19.18 or ASTM standard F2387...”

PUR-O-ZONE can provide you information on the VGB Act and the knowledge to assist you in looking at an SVRS to save tens of thousands of dollars in complying with this act through re-design of your pool. Our expert installation is available to complete the task and keep your pool open for use within hours. In addition to the SVRS, your needs may call for drain cover that assists in providing safety by an anti-blockage design.
