

# INTEGRA® GREEN™

INTEGRA®... in a word, SIMPLE.

# INTEGRA® GREEN™ PRODUCTS

**The INTEGRA® TIP® Laundry Program (Total Impact Program) was created in December of 1997 and received the EPA's first Design for the Environment Institutional Laundry Program partnership. Since that time we have worked to maintain that program while adding additional cleaning products in the past several years.**

**The Design for the Environment program paved the way for new green endorsements through the creation of the CleanGredients and Blue Green organizations. Anderson Chemical Company continues to work with these organizations to provide new and improved green chemistry.**

**ADVANTAGES...** INTEGRA® Green™ products are formulated with effective environmentally preferable chemistry. The result is safer products for your customer and safer products for the environment. Not only are use related factors considered but down-stream environmental impact is as well.

**SAFETY...** INTEGRA® Green™'s safer chemistry will positively impact many of your company functions:

- **INTEGRA® Green™** products provide less hazardous materials for your warehouse personnel, your customers and their employees. National focus on the desirability of green products has created an enthusiastic market for your products.
- **INTEGRA® Green™** products will carry lower-to-no hazardous ingredient labeling with reduced-to-no hazards for warehousing and DOT shipping and handling invoices.
- And last, but certainly not least, **INTEGRA® Green™** products provide a positive environmental impact as their work is completed and they travel downstream. Federal, state, and local regulators are becoming increasingly restrictive in the type of effluents that are allowable. They are joining the millions in the private sector who want to maintain or reclaim, healthy streams, rivers, lakes and air.

**FUTURE...** More and more customers are looking for environmentally preferable products. Hospitality, schools, healthcare and other public and private facilities want to show their clients that they are doing their part to protect and preserve the environment. Government regulators are demanding safer products for employees and the environment. The time is now, the products are **INTEGRA® Green™!**

# INTEGRA® LAUNDRY PRODUCTS

**ZYME PLUS** is a liquid enzyme detergent designed for industrial and institutional use. It contains a blend of enzymes, anionic and non-ionic surfactants and solvents to effectively remove oily, greasy and protein soils. **ZYME PLUS** is part of the Anderson TIP® (Total Impact Program). **ZYME PLUS** is an EPA Design for the Environment product. It provides stain removal and safety for the user and the environment. **ZYME PLUS is a DfE approved product.**

**PROPEL** is an oxygen bleach designed for the TIP® (Total Impact Program). It provides stain removal and safety for the user and the environment.

**CONCLUDE** controls pH and keeps linens soft and bright. Reduces static and wrinkling, also aids in drying linen. Designed to be used in a fabric rinse. Increases production through faster more complete water extraction, reduces static for faster ironing. Effective iron controlling formula. TIP® product.

**CITRI SOUR** safely neutralizes alkalinity. Designed to adjust the final pH in the wash cycle. Environmentally preferable and user safe. Design for the Environment product. TIP® product. **CITRI SOUR is a DfE approved product.**

**SPECTRUM** is a part of the INTEGRA® STAIN REMOVAL SYSTEM. It is an enzyme based spot remover that is effective on a wide range of stains. It penetrates fabrics and lifts out stains. This product is recommended for all types of stains and spots on institutional and personal laundry.

**COMMAND** is a laundry detergent designed for use in hard water and heavy soils. Improves results by sequestering minerals. Attacks grease, powers out tough stains. Safe for all types of natural and synthetic fabrics. May be used in hot, warm and cold wash programs. For institutional laundry use only.

# INTEGRA<sup>®</sup> LAUNDRY PRODUCTS

**ACCENT** is a high surfactant laundry detergent that is safe on all fabrics. **ACCENT** is a powerful emulsifier with a grease fighting formula that will safely remove greasy soils from fabrics by emulsifying soil and keeping it suspended to prevent redeposition. **ACCENT** will remove even the heaviest soils when used in conjunction with **PRELUDE** laundry breaker. Areas of use are healthcare, hospitality, food processing, heavy soils, barrier fabrics, table linens and uniforms.

**OXY BOOST** is a liquid laundry additive based on hydrogen peroxide. **OXY BOOST** is designed to be used during the wash cycle as a detergent additive. It provides exceptional soil removal. For institutional laundry use only. This product is recommended for use in our TIP<sup>®</sup> program. **OXY BOOST is a DfE approved product.**

**HARMONY** is a non-phosphate, environmentally preferable, liquid detergent designed to be used on personal linen. **HARMONY** is a combination of detergent and oxygen bleach. Brightens, whitens and attacks tough stains. Leaves linen smelling fresh. Safe for all types of natural and synthetic fabrics. May be used in hot, warm and cold wash programs. For institutional laundry use - safe to use on personal linen. This product is recommended for use in our TIP<sup>®</sup> program. **HARMONY is a DfE approved product.**

# INTEGRA<sup>®</sup> HOUSEKEEPING PRODUCTS

**BIO CLEAN** is a synergistic blend of microbes and surfactants that work in two ways. First, **BIO CLEAN** goes to work immediately using surfactant technology to emulsify the grease. Next, the enzymes provide long-term, deep cleaning by breaking down the grease and other organics that accumulate in porous floor surfaces. This unique formulation is designed to degrade even the difficult fatty acid component of grease. This environmentally friendly formula cleans floors and grout in institutional and industrial locations. **BIO CLEAN** reduces slippage and odors.

**BRILLIANT** is a multi-purpose/glass cleaner. **BRILLIANT** is based on an environmentally preferable surfactant with no VOC solvents. Its non-streaking and concentrated formula is designed to be used on all glass, plastic, vinyl surfaces and appliances. Fast drying formula leaves glass sparkling. **BRILLIANT** is a DfE approved product. Available in one gallon INTEGRA<sup>®</sup> capsules or half gallon DOSE<sup>™</sup> by SURFLEX<sup>®</sup> capsules.

**PURSUIT** is a chemical bacteria blend formulated with 7 bio-strains of microorganisms designed for their ability to degrade grease, fats and oils at accelerated rates. This synergistic blend provides exceptional results for line and trap maintenance. Contains no acids or solvents. **PURSUIT** can be used to eliminate stain causing organics as well as organic odors. With consistent treatment, the biological oxygen demand (BOD), chemical oxygen demand (COD), and total suspended solids (TSS) are significantly reduced. **PURSUIT** is safe to use. Safe for the environment and biodegradable.

**RIVER RAPIDS FRESH** can be used wherever odors are a problem. A single spray leaves a clean, fresh scent in the air. Use wherever an air freshener is needed: kitchens and bathrooms, room deodorizing, carpet, upholstery, waste collection sites. For institutional use only. **RIVER RAPIDS FRESH** is a DfE approved product. Available in one gallon INTEGRA<sup>®</sup> capsules or half gallon DOSE<sup>™</sup> by SURFLEX<sup>®</sup> capsules.

**NATURAL** is a unique multipurpose cleaner and degreaser based on hydrogen peroxide, surfactant, and natural orange oil. **NATURAL** is a safe alternative to acid, caustic and ammoniated cleaners. **NATURAL**'s numerous dilutions eliminate the need for separate cleaners for glass cleaning, degreasing, mopping and spray and wipe cleaning. **NATURAL** is a concentrated product that handles all your cleaning needs with a natural orange fragrance. Can be used on windows, mirrors, walls, floors, bathroom surfaces, showers, tile, grout, and kitchen areas. **NATURAL** is a DfE approved product. Available in one gallon INTEGRA<sup>®</sup> capsules or half gallon DOSE<sup>™</sup> by SURFLEX<sup>®</sup> capsules.

# INTEGRA<sup>®</sup> HOUSEKEEPING PRODUCTS

**DEFY** is a concentrated institutional cleaner that is extremely effective on food soils. It removes stubborn stains quickly and effectively. **DEFY** is a heavy duty floor and wall cleaner that contains solvent and detergent builders. Can be used on kitchen counters, grills and appliances. Designed for use on all hard surfaces. **DEFY** is a DfE approved product. Available in one gallon INTEGRA<sup>®</sup> capsules or half gallon DOSE<sup>™</sup> by SURFLEX<sup>®</sup> capsules.

**CLEAR CHOICE** is an acid free restroom cleaner. This stain fighting formula is surfactant and detergent based. **CLEAR CHOICE** with its non-abrasive formula is designed to tackle the toughest cleaning jobs. Safe on porcelain, ceramic tile, stainless steel, fiberglass and formica. For institutional use only. Available in one gallon INTEGRA<sup>®</sup> capsules or half gallon DOSE<sup>™</sup> by SURFLEX<sup>®</sup> capsules.

**STELLAR** is an institutional general purpose cleaner. This concentrated product is formulated to safely clean all surfaces. A unique blend of surfactants and water conditioners make it an effective, yet pleasant detergent. **STELLAR** has a neutral pH formula and is economical to use. Leaves surfaces clean and film-free. Safe to use on waxed floors. Use on any surface not harmed by water. Provides excellent cleaning of floors, walls, equipment, ceramic tile and stainless steel. Available in one gallon INTEGRA<sup>®</sup> capsules or half gallon DOSE<sup>™</sup> by SURFLEX<sup>®</sup> capsules.

**FRESH AIR** is a highly effective deodorant/malodor absorber. It is suitable for a wide variety of applications. Use wherever a deodorizer is needed to control malodors: kitchens and bathrooms, room deodorizing, carpet, upholstery, waste collection sites. For institutional use only. Available in one gallon INTEGRA<sup>®</sup> capsules or half gallon DOSE<sup>™</sup> by SURFLEX<sup>®</sup> capsules.

**CITRI FOAM** is a premium, instant, lathering skin cleanser. **CITRI FOAM** produces a rich lather that gently cleans skin. Safe on sensitive skin. Uses up to 40% less hand soap than traditional hand soaps. Fresh scent makes hand washing a pleasant experience. For use in all facilities, including restaurant, schools, office building, supermarkets etc.

**PRISTINE** is an all purpose restroom cleaner with low pH, designed to remove soil, stains, soap film and hard water deposits. **PRISTINE** will take care of most of your restroom and shower maintenance needs. **PRISTINE** is phosphate free and contains no volatile organic substances. It is a salt of an organic acid and is much safer and easier to use than other acids. Not considered a corrosive material by the Department of Transportation. Available in one gallon INTEGRA<sup>®</sup> capsules or half gallon DOSE<sup>™</sup> by SURFLEX<sup>®</sup> capsules.

# INTEGRA® WAREWASHING PRODUCTS

**VIVID** is a rinse drying additive designed specifically for use in all temperature dishmachines. **VIVID** produces gleaming glassware and spotless silverware. Designed to be used for institutional high temperature mechanical warewashing.

**INVADE** is a high quality institutional utensil presoak detergent that removes tough soils from flatware. Improves silverware appearance. For use in institutional warewashing.

**DISSOLVE** is an ideal choice for institutional and industrial descaling, deliming and de-rusting applications. The majority of descalers on the market are based on highly corrosive acids. **DISSOLVE** is an organic salt that acts like an acid. **DISSOLVE** is also phosphate free and contains no volatile organic substances. It does not fume, and is much safer and easier to use than other acids. Not considered a corrosive material by the Department of Transportation. For descaling dishmachines, coffee urns, steam tables. **DISSOLVE** should not be used on galvanized metal or marble.

**CITRI SUDS** is a blend of mild detergents designed for manual warewashing operations and light general cleaning chores. Rich, long-lasting suds combine with sheet-rinsing to leave dishes, utensils and glassware sparkling. Also use **CITRI SUDS** for light house-keeping chores - safe on painted, vinyl, wood and metal surfaces - may be used in various water hardness conditions. Designed to be used in first tank sink or light duty cleaning.

**LUSTER** is formulated to be gentle on skin and hands. Effective even in highly soiled water. Rinses quickly and thoroughly. Pleasant fragrance. Designed to be used for manual warewashing and general cleaning effective in all water conditions.

# INTEGRA® WAREWASHING PRODUCTS

**SPOTLESS** is a rinse drying additive designed specifically for use in lo-temp and hi-temp dish machines. Delivers sparkling glassware under normal water conditions. Excellent sheeting action. INTEGRA® Green™ chemistry that is safe for employees and the environment.

**VISION** is a highly concentrated formula designed to be effective in handling moderate to heavy soils. **VISION** works well in a variety of water conditions. **VISION** is formulated with effective, environmentally preferable chemistry.

# THE ALLURE OF GREEN

With the increasing number of detergents available for general cleaning and sanitizing, come more and more stringent regulations. Distributors that sell these detergents are put in a tough place. They face piles of paperwork and pages and pages of detailed governmental regulations. Recent legislation has shifted to protecting anyone who might come into contact with cleaners.

With increasing layers of red tape attached to chemical sales and the increasing number of facilities and businesses seeking greener options, many manufacturers are marketing environmentally preferred products. Manufacturers and distributors have found these products to present new and profitable sales.

For years **Anderson Chemical Company** has prided itself as a leader in the manufacturing of low toxicity laundry products. We have worked diligently with the EPA to develop the **TIP® Laundry System**. **TIP®** is recognized as the greenest laundry system in the marketplace today. We remain focused on developing our green product lines in all areas.

We have launched an effort with the EPA's **Design for the Environment (DfE)** to develop a set of standards for our "green" products that meet or exceed criteria developed by other rating services -e.g. Hillyard's Green Select, Green Seal, etc. Products that meet the standards will carry a seal that lets consumers know the product is part of the **INTEGRA® Green™** program. To earn the **INTEGRA® Green™** seal, a product must meet rigorous evaluation and testing. These products will use only the most environmentally preferable raw materials currently available.

Once again, **INTEGRA®**, is leading the industry!
