EcoSoft™ Green Seal™ Certified Products

**EcoSoft™ Green Seal™ towel
and tissue products are
certified by Green Seal, Inc.
in Washington, DC**

Wausau Paper EcoSoft™ Green Seal™ towel and tissue products are made from 100% recycled wastepaper and are certified by Green Seal, Inc. in Washington, DC. The "Green Seal" means our products meet the Green Seal environmental standards for paper towels and tissue, making the EcoSoft™ Green Seal™ products among the most environmentally preferable towel and tissue

lines available in the away-from-home market.

To achieve and maintain the Green Seal certification, our towel and tissue products are continually subjected to rigorous evaluation and testing, along with a quality-control audit of our papermaking processes at our mill in Middletown, Ohio. Green Seal's environmental evaluation uses both qualitative and quantitative measures to ensure maximum product quality and performance, with minimal impact on the environment in manufacturing.

Green Seal Standards for Paper Towels

- ▶ 100% Recycled (recovered after papermaking process)
- ▶ Minimum 40% post-consumer wastepaper content (EPA guidelines)
- ▶ Wastepaper is not de-inked using solvents containing chlorine or any other chemicals or compounds harmful to the environment.
- ▶ Wastepaper is not bleached using chlorine or any of its derivatives such as hypochlorite and chlorine dioxide.
- ▶ Paper towels do not contain any added pigments, inks, dyes or fragrances.
- ▶ Product is made in accordance with reasonable industry practice with respect to holes, tears, wrinkles, cleanliness, foreign materials or dirt. Product must dispense properly from the container (dispenser) or roll.
- ▶ The cores in the roll towels are made from 100% recycled materials.
- ▶ Packaging materials cannot contain lead, cadmium, mercury and hexavalent chromium in excess of 100 parts per million (above trace levels).

Green Seal Standards for Bath & Facial Tissue

- ▶ 100% Recycled (recovered after papermaking process)
- ▶ Minimum 20% post-consumer wastepaper content in bath tissue; 10% in facial tissue (EPA guidelines)
- ▶ Wastepaper is not de-inked using solvents containing chlorine or any other chemicals or compounds harmful to the environment.
- ▶ Wastepaper is not bleached using chlorine or any of its derivatives such as hypochlorite and chlorine dioxide.
- ▶ Bath and facial tissue does not contain any added pigments, inks, dyes or fragrances.
- ▶ Bath tissue contains a minimum of 40 square feet of product per roll; facial tissue contains a minimum of 70 square feet of product per box (inner packaging).
- ▶ Product is made in accordance with reasonable industry practice with respect to holes, tears, wrinkles, cleanliness, foreign materials or dirt. Product dispenses properly from the box or fixture (dispenser).
- ▶ The cores in the bath tissue and the box for the facial tissue are made from 100% recycled materials.
- ▶ Packaging does not contain inks, dyes, pigments, stabilizers or any additives to which any lead, cadmium, mercury and hexavalent chromium has been intentionally introduced.
- ▶ Packaging materials cannot contain lead, cadmium, mercury and hexavalent chromium in excess of 100 parts per million (above trace levels).

EcoSoft™ Green Seal™ Certified Products

Green Seal, Inc.

Green Seal is an independent, non-profit organization, located in Washington, DC, that strives to achieve a healthier and cleaner environment by identifying and promoting products and services that cause less toxic pollution and waste, conserve resources and habitats, and minimize global warming and ozone depletion. Green Seal has no financial interest in the products that it certifies or recommends or in any manufacturer or company. Green Seal's evaluations are based on state-of-the-art science and information using internationally recognized methods and procedures. Thus, Green Seal provides credible, objective, and unbiased information whose only purpose is to direct the purchaser to environmentally responsible products and services. (www.greenseal.org)

Going Green

In the early 1990s, going **green** simply meant buying paper and other products that were made of recycled materials or could be reclaimed from the waste stream for some additional use. Today, **green** takes environmental stewardship to a whole new level. It is an approach to purchasing products and services that creates a healthy living and working environment. As a result, property managers and governments (federal, state, county and municipal) are seeking to incorporate environmental considerations in their buying decisions. Simply stated, they want a healthier environment for their tenants, citizens, and employees. Many commercial buildings and properties, lodging and hotel operations, and government facilities have mandates or policies to be green.

Wausau Paper's EcoSoft™ Green Seal™ products can help our customers in achieving green status. A complete line of towel and tissue products is available including roll and folded towels, bath and facial tissue, and toilet seat covers. The EcoSoft™ Green Seal™ roll and folded towels are available in both natural and our unique natural white, a paper grade created by Wausau Paper for our EcoSoft™ family of products.

We want to work with you and your Wausau Paper distributor to assist you in achieving your business goals. Wausau Paper sales specialists can help you choose an EcoSoft™ Green Seal™ product that accomplishes your green objectives, or custom-imprinted dispensing systems that will help you project the right image to your customers and employees as well as reduce waste and cost. Our personalized service can assist you in determining the Bay West® products that are right for your business.

EcoSoft™ Green Seal™ towels

and tissue are among

the most environmentally

preferable products

available in the

away-from-home market

Middletown, Ohio Mill

The Middletown, Ohio facility is a highly efficient paper mill, supplying paper in bulk form (parent rolls) that ultimately becomes the towel and bath tissue products for the Bay West® product offering. The parent rolls of paper produced in Middletown are shipped to the Harrodsburg, Kentucky facility for converting into finished product, providing a fully integrated mill-converting operation. The Middletown mill produces a variety of towel and tissue grades, including several 100% recycled fiber grades that are Green Seal-certified and meet or exceed all EPA guidelines for post-consumer wastepaper content.

The Middletown mill is equally friendly to the environment in the paper-making process. Producing both natural and bleached paper from two de-inking operations, the Middletown mill uses an environmentally friendly process free of chlorine and other harmful chemicals and compounds. The facility in Middletown includes a wastewater treatment plant, where over 2,000,000 gallons of water a day are treated and returned to the de-inking operation. This self-contained water recycling process eliminates the need for additional fresh water, conserving our natural resources.

Throughout the Wausau Paper operations, we also work to “close the loop” in recycling. Our Harrodsburg facility includes our Bay West® headquarters and converting operations, where we recycle office wastepaper, corrugated containers, and post-converting scrap. These materials are diverted from the waste stream for return to our Middletown mill for use in the papermaking process.

Wausau Paper works to “close the loop”

in recycling by diverting materials

from the waste stream for return to

the papermaking process.

Wausau Paper’s Unique “Natural White” Paper Grade

The unique Bay West® natural white paper grade is manufactured at our Middletown mill, exclusively for our EcoSoft™ Green Seal™ roll and folded towels.

The natural white paper is made from recycled office wastepaper, and old newspapers and magazines. This wastepaper undergoes a screening process to remove contaminants, such as staples and plastics, and a washing and de-inking process

that uses “flotation” to remove inks, as opposed to a bleaching process. The end result is paper with a look and brightness

approaching some bleached grades, but in content is the unbleached, natural white color of the paper. Our

natural white towels are among the most environmentally preferable

paper products available today in the away-from-home market.

EcoSoft™ Green Seal™ Certified Products

Wausau Paper is a Proud Member of the “Green” Hotels Association® and the U.S. Green Building Council

The U.S. Green Building Council (USGBC) is the nation's foremost coalition of leaders for promoting and advancing buildings that are environmentally responsible, profitable, and healthy places to work. The USGBC is located in Washington, DC and currently includes more than 9,000 corporate members. The Leadership in Energy and Environmental Design (LEED™) program was established by the U.S. Green Building Council as a series of credits that identify the issues associated with designing and constructing a “green” building. LEED for Existing Buildings (LEED-EB), recently created by the USGBC, provides existing building owners with guidelines for developing high-performance sustainable buildings. (www.usgbc.org)

As the first paper company to join the U.S. Green Building Council, Wausau Paper can directly support the goals of the Council and our customers working to achieve “green” status for their buildings with our EcoSoft™ Green Seal™ products.

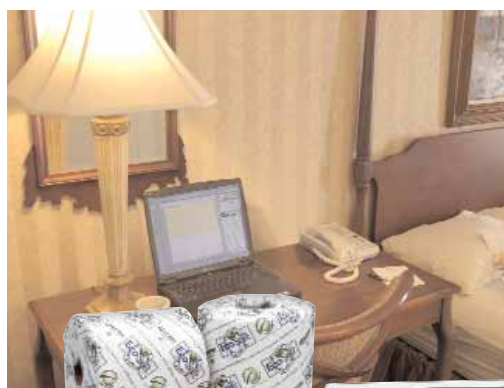

The “Green” Hotels Association® encourages, supports and promotes ecological consciousness in the hospitality industry through its trade association and *Catalog of Environmental Products for the Lodging Industry*. Because general managers, chief engineers and executive housekeepers often do not have the time and resources to find all ideas for conserving natural resources and reducing waste, the “Green” Hotels Association® has devoted itself to that task. (www.greenhotels.com)

As the first and only paper company to be offered membership in the “Green” Hotels Association as an ally vendor, Wausau Paper can support the hospitality industry's need for ecologically responsible products through our offering of EcoSoft™ Green Seal™ towels and tissue.

Wausau Paper offers a full line of EcoSoft™ Green Seal™ towel and tissue products to help you achieve “green” status for your building.

EcoSoft™ Green Seal™ tissue products provide guests with the strength and softness they expect, while promoting environmental responsibility.

EcoSoft™ Green Seal™ Certified Products

EcoSoft™ Green Seal™ towel and tissue products are 100% recycled and meet or exceed the U.S. EPA guidelines for post-consumer waste content. EcoSoft™ Green Seal™ products are also made with de-inking and bleaching processes free of chlorine and other harmful chemicals and feature environmentally preferable packaging. These attributes make EcoSoft™ Green Seal™ among the most environmentally preferable towel and tissue lines available in the away-from-home market.

ECOSOFT™ GREEN SEAL™ TOWELS

EcoSoft™ Green Seal™ towels are 100% recycled and made entirely from recovered fibers. Natural towels contain up to 82% post-consumer waste; natural white towels contain up to 73% post-consumer waste; and white towels contain up to 49% post-consumer waste.

Certified roll towels are available in controlled-use and universal and are designed for those wanting to achieve green status for their facility.

Certified folded towel options include traditional and a new unique size, OptiFold®, designed for class A buildings and upscale facilities.

OPTISOURCE® SOAP

OptiSource® 91300 Pink Foam Lotion soap is Green Seal-certified. This soap is ideal for multipurpose needs lavatories and is designed to replace expensive bar soap and low-quality liquid and powder soaps.

ECOSOFT™ GREEN SEAL™ SPECIALTY PRODUCTS

Heavily embossed EcoSoft™ Green Seal™ household paper toweling provides the softness and absorbency of household toweling and has the wet strength needed for use in business and industry. Household toweling contains up to 49% post-consumer waste.

EcoSoft™ Green Seal™ facial tissue offers the softness and absorbency of household tissue with attractive packaging and meets EPA guidelines with 10% post-consumer waste.

EcoSoft™ Green Seal™ toilet seat covers provide maximum sanitary protection and contain 20% post-consumer waste.

OPTICORE® TECHNOLOGY

▶ OptiCore® Technology offers a two-part core for controlled use and more than 25% reduction in core material for more environmentally preferable packaging.

▶ High sheet count for maximum capacity.

▶ Attractive premium floral embossing pattern on two-ply tissue.

EcoSoft™ Green Seal™
OptiCore® Controlled-Use Tissue

ECOSOFT™ GREEN SEAL™ TISSUE

EcoSoft™ Green Seal™ bath tissue contains up to 49% post-consumer waste, which exceeds EPA guidelines. Certified bath tissue is available in controlled and universal single rolls as well as jumbo roll tissue. EcoSoft™ Green Seal™ single roll bath tissue is embossed for softness.

ECOSOFT™ GREEN SEAL™ OPTICORE® TISSUE

EcoSoft™ Green Seal™ bath tissue with OptiCore® technology offers a two-part core for controlled use and more than a 25% reduction in core material for more environmentally preferable packaging. The OptiCore® technology when combined with our Revolution® and Dubl-Serv® dispensing systems ensures the maximum use of each roll in the dispenser before advancing to the next roll. This "controlled use" reduces product waste and cost.

The EcoSoft™ Green Seal™ OptiCore® tissue offers a high sheet count and is available in single and double-ply. The one-ply tissue has a pebble emboss pattern while the two-ply tissue features a consumer-like floral embossing pattern for added softness.

Dispensing Systems for a Color Coordinated Washroom

Wave'nDry®

80010/75010 Wave'n Dry® Roll Towel Dispensers

The Wave'n Dry® dispenser is the first roll towel system to offer totally touch free dispensing. The only thing you touch is your personal towel. The towel is stored fully protected inside the dispenser until you request service by passing your hand or arm underneath the sensor. The sensor is now pointed downward to allow the Wave'n Dry® to be installed in a variety of applications. There are no levers, buttons or cranks on the Wave'n Dry®, thereby reducing the chance from cross-contamination from touching these commonly used surfaces. Dispensing can be tailored to your facility's needs with 8", 11", 16.5" or 22" of toweling dispensed with each wave. To dispense another towel, wave again. It is that simple.

Available in five translucent colors: Black, Green, Red, White and Blue.

OPTISERV®

Hands-Free Dispensing System

86500/76500 Hands-Free Roll Towel Dispensers

With its curved structure and elegant style, the OptiServ® is a natural addition to the Bay West® Silhouette® line of dispensing systems. The OptiServ® hands-free dispenser features durable plastic construction for years of commercial use, and for those environmentally conscious consumers, some internal components are made of up to 15% recycled materials. With each pull of the slightly exposed towel, the OptiServ® dispenses and cuts a pre-measured 11-inch towel. This feature encourages users to take only the toweling that is needed which reduces unlimited use and waste.

Available in five translucent colors: Black, Green, Red, White and Blue.

53500/53200 Silhouette® Folded Towel Dispensers

The Silhouette® coordinating folded towel dispenser is designed to dispense both traditional folded towels and the OptiFold® folded towel. They provide a sleek, yet elegant style that provides a coordinated washroom appearance. The translucent design allows a maintenance staff to see *at-a-glance* when it is time to refill, saving them time and costs. A compact size is also available when space is limited. A small adapter is also available to accommodate the OptiFold® ES 8-inch folded towel.

Available in five translucent colors: Black, Green, Red, White and Blue.

Dispensing Systems for a Color Coordinated Washroom

The Silhouette® tissue dispensing systems designed for the OptiCore® technology feature sleek, contemporary styling and offer increased capacity for optimum savings.

80200 2-Roll Side-by-Side Tissue Dispensers

The Dubl-Serv® 2-roll side-by-side tissue dispensing system will accommodate OptiCore® tissue products for controlled-use dispensing and maximum savings in maintenance time and costs. The Dubl-Serv® is designed for high-capacity applications and features a locking cover to prevent product pilferage and waste. The Dubl-Serv® dispenser is available in five color choices and can be custom-imprinted for a unique, coordinated washroom appearance.

Dubl-Serv®

Available in five translucent colors: Black, Green, Red, White and Blue.

80300 3-Roll Tissue Dispensers

The Revolution® 3-roll tissue dispensing system is designed for high-capacity controlled-use dispensing of OptiCore® tissue products. When one roll of tissue is used, simply turn the dial to advance to the next roll. The OptiCore® technology ensures the maximum use of each roll in the Revolution® dispenser to save maintenance time and costs. This sleek, contemporary dispenser also features a locking cover to prevent product pilferage and waste. The Revolution® dispenser is available in five color choices and can be custom imprinted for a unique, coordinated washroom appearance.

Available in five translucent colors: Black, Green, Red, White and Blue.

REVOLUTION®

Available in five translucent colors: Black, Green, Red, White and Blue.

19510 Silhouette® Toilet Seat Cover Dispensers

The Bay West® Silhouette® toilet seat cover dispenser, combined with EcoSoft™ Green Seal™ toilet seat covers, reduces maintenance and provides high-quality service users expect. The Silhouette® toilet seat cover dispenser two-pack capacity allows it to go longer between refills, saving you costly maintenance time. The Silhouette® toilet seat cover is now available in the five coordinating colors to complete your unique washroom appearance.

19000 OptiSource® Hand Care Systems

The Bay West® OptiSource® dispensing system is designed for use with either foam or liquid soap. To dispense the foam soap products, the actuator stays in place. The back is made with slots for easy mounting and features a one-hand push design for easy operation. The compact size also makes it ideal for applications where space is a consideration.

Available in five colors: Black, Green, Red, White and Blue.

Bay West® Dispensers

Silhouette® dispensers provide an elegant, coordinated washroom appearance.

COMPATIBLE™ ROLL TOWEL DISPENSERS

Fully loaded Compatible™ dispensers have twice the capacity of the average folded towel dispenser.

Button-lever and lever only models deliver a pre-measured 10 3/4 inch towel to discourage paper waste and give you maximum cost control.

67500/77500/16500 GRIZZLY® PULL AND TEAR DISPENSERS

The Grizzly® Pull and Tear dispensers offer the benefits of high-capacity dispensing in a compact dispenser size. The Grizzly® dispensers are smaller than conventional lever-style cabinets, but will hold roll towels in lengths of up to 800', making them ideal for high-traffic applications where limited wall space is a consideration.

16000 UNIVERSAL ROLL TOWEL DISPENSERS

The universal roll towel dispenser accommodates most universal roll towels and provides *at a glance* maintenance. The push dispensing mechanism makes the dispenser easy to operate.

89400/79400

89500/79500

68100 CENTERPULL DISPENSERS

Silhouette® CenterPull dispensers help reduce cross-contamination, since users touch only the toweeling they take, making them perfect for a variety of applications. The 68100 CenterPull dispenser is noiseless, has no moving parts and has a hinged door for easy loading and unloading.

67000/77000 SILHOUETTE® HANDS-FREE TOWEL DISPENSERS

The 67000/77000 dispenser features a serrated plastic edge for easy sheet tear-off and translucent styling for *at a glance* maintenance. The hands-free design prevents cross-contamination and is ideal for today's image-conscious healthcare environment.

88800 9" TISSUE DISPENSERS

The Silhouette® 9" tissue dispenser holds one roll of toilet tissue. This dispenser fits where larger dispensers can't, but is still ideal for heavy traffic washroom usage.

88900 SIDE-BY- SIDE TISSUE DISPENSERS

This efficient Silhouette® dispenser holds two 9" rolls of toilet tissue. The side-by-side design features a serrated plastic edge for easy sheet tear-off and a sliding door to ensure only one roll is used at a time.

88700 SILHOUETTE® JUMBO TISSUE DISPENSERS

Silhouette® jumbo tissue dispensers are ideal for washrooms with heavy traffic over a short period of time where regular maintenance is not possible.

This mark indicates that the dispenser is ADA Title III compliant. Roll towel dispensers require less than 5 lbs. of force to effortlessly dispense the towel as set forth in the ADA Accessibility Guidelines. On all ADA compliant dispensers, controls and operating mechanisms are operable with one hand and do not require tight grasping, pinching or twisting of the wrist.
